ATOMY TOOTHPASTE

Propolis?

ATOMY TOOTHPASTE

Propolis is used to seal the beehive to protect the inside from viruses and germs.

It is a natural protective substance that is made to prevent the outer germs. And it is widely used on health supplements and antibacterial daily necessities.

ATOMY TOOTHPASTE

Water-soluble Propolis Extract Contained

- Dental Plaque Removing(anti-plaque)
Effect
- Dental Cavities Preventing Effect
- Bad Breath Removing Effect

ATOMY TOOTHPASTE

Green Tea Extract

Catechin, a major ingredient of green tea, enhances immune power, as polyphenol ingredient has anti-oxidation and anti-oxidation and anti-biotic effect, and is effective for removal of bad breath by deodorizing action.

Propolis Extract

This is dark brown colored and sticky resin liquid collected from entrance of bee hive and a natural antibiotic substance with anti-bacterial and anti-inflammation effect to inhibit propagation of various bacterial and virus.

ATOMY TOOTHPASTE

Dental Plaque Removing(anti-plaque) Effect

Dental plaque is often called **PLAQUE** and refers to a layer that bacteria attach to the tooth surface and form in lumps. Proper amount of **silicon dioxide** can remove dental plaque.

ATOMY TOOTHPASTE

Tartar Deposition Preventing Effect

The cause of gingivitis inflammation is tartar and sodium pyrophosphate prevents tartar deposition.

Sodium pyrophosphate prevents plaque attached to teeth to be deposited as tartar.

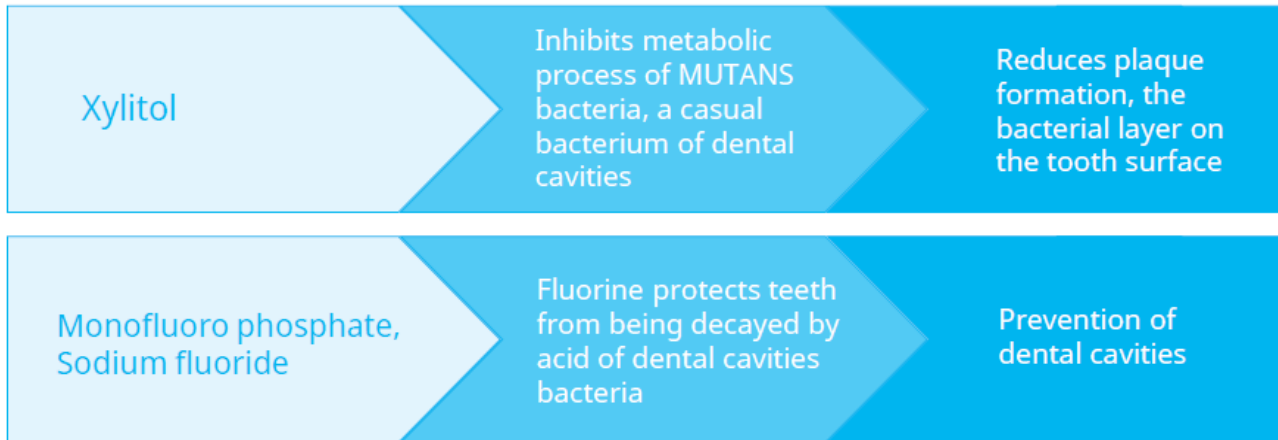

ATOMY TOOTHPASTE

Dental Cavities Preventing Effect

* Xylitol has been used as sweetening agent.

Triple complex action of monofluoro phosphate, sodium fluoride, and xylitol prevents dental cavities.

ATOMY TOOTHPASTE

Bad Breath Removing Effect

Bad breath is mainly caused by **bacterial hydrogen sulfide** or **methyl mercaptan** in mixing organic matters.

Bacteria + Sugar

Acid produced

Food decay

Plaque

Hydrogen sulfide formation
